

Investment Analyst / Business Controller (f/m/d)

Cologne, Germany

Omni Bridgeway is the global leader in financing, managing and investing in legal risks, with expertise in civil and common law systems, and operations spanning Asia, Australia, Canada, Europe, the Middle East, the UK and the US. Omni Bridgeway offers capital and project management services for clients from case inception through to post-judgment enforcement and recovery. Since 1986 it has established a record of success for clients around the world.

Omni Bridgeway is listed on the Australian Securities Exchange (ASX:OBL) and the group has adopted this name following the 2019 merger of the leading dispute funders formerly known as IMF Bentham Limited in APAC, Bentham IMF in the US, Omni Bridgeway in EMEA and ROLAND ProzessFinanz in Germany. It also includes a joint venture with IFC (part of the World Bank Group) in the Middle East.

Omni Bridgeway has the world's largest dispute finance team, with 150+ talented professionals working from 18 offices across 10 countries. For more information about the company, including details of our track record, clients, cases and financial position, please visit omnibridgeway.com.

We are seeking an experienced and ambitious Investment Analyst / Business Controller to join the Cologne, Germany team.

Responsibilities

This newly created position will be part of the German and the international finance teams, and reports to German management as well as to the EMEA and Global management. As Investment Analyst, you will be working directly with lawyers and management in (international) investment teams. You will be responsible for the analysis of investments as well as for reviewing investments at all stages of the process. While the focus of this position will be the German-speaking market, you will also be involved in international investment projects. As Investment Analyst, you will support the team by providing investment and return analyses, budget plans, and cost control across all stages of the litigation funding and investment process – from the funding/investment decision to the conclusion of the case. Additionally, you will have business controlling responsibilities in the day-to-day business through, among other things, financial reporting and forecasts.

Requirements

You are a candidate who is entrepreneurial both in thought and action and has a (master's) degree in banking, finance/controlling, business economics, or in a similar subject. You have several years of professional experience, preferably in the fields of investment management, private equity, finance, mergers & acquisitions, strategy consulting, or auditing. You enjoy analyzing problems and solving them; you are well-versed in the usual Office applications, particularly Excel; and you have gained financial-modeling experience. It is as important to you to work in a structured way and to have a keen eye for detail as it is to communicate well and cooperate closely with your colleagues. In addition to German, you are well versed in the English language.

Profile

- Entrepreneurial spirit
- Problem solver
- Master's degree in banking, finance, controlling, business economics or similar
- At least 3 years of professional experience
- Preferably experience in investment management, private equity, finance, mergers & acquisitions, strategy consulting, or financial advisory
- Excellent excel skills with modelling experience
- Team player
- Structured with an eye for detail
- Well versed in English

If you are interested in a challenging investment management position at a leading global firm in a rapidly growing sector, then this position might be of interest to you. Our remuneration package is competitive, with excellent bonus and potential stock option components.
